SYMMETRIC FIBRE
From 160 Mbps up to 2.5 Gbps where available

SOGEA
Broadband with no phone line, at around 90% of UK premises

NETWORK
Business only, with UK based support

VOICE
Converged options for hosted phones and SIP

SUPPORT
Business Care options and a real person at Kee

THE OPTIONS

Full fibre (FTTP)
Fibre all the way to your premises. You get the speed you pay for, not an "up to" speed, with speeds up to 1 Gbps.

Symmetric full fibre
Equal upload and download speeds, from 160 Mbps up to 2.5 Gbps where available, ideal for cloud, video and large files.

Leased lines
A dedicated fibre connection for larger and multi site businesses where data is business critical.

SoGEA
Broadband without a phone line, so no line rental, at up to 80 Mbps. Available to around 90% of UK premises, quick to install and ready for hosted phones.

Converged broadband
A router set up to put voice first, so calls on your hosted phone system or SIP trunks stay clear.

Business Care
Upgrade your maintenance for an even faster fix time if something goes wrong.

FREQUENTLY ASKED QUESTIONS

Your questions answered

What is FTTP?
Fibre all the way to your premises, with the speed you buy rather than an “up to” speed.

What is SoGEA?
Broadband without a phone line, so you don’t pay line rental.

Do I need a phone line?
No. SoGEA and FTTP don’t need one.

Why business broadband?
A business only network, UK support and faster fix options.

Will it work with my phones?
Yes. Converged options put voice first for hosted phones and SIP.

What about the 2027 switch off?
We move you to SoGEA or full fibre before the deadline.

What speed do I need?
We look at your team and usage and recommend what fits.
