BUSINESS SERVICES

COMMERCIAL SOLAR

GENERATE · SAVE · PROTECT

Commercial Solar Panels

Make your own power, and protect your business from rising prices.

Solar panels on your roof or land generate electricity on site, cutting what you buy from the grid. We design, install and look after the system, with funding options to suit.

- **Lower energy bills** from your own power
- **Protection** from rising grid prices
- **Flexible funding**, including no upfront cost

Keeping promises. Keeping costs under control.

DESIGNED AROUND YOUR SITE

Solar that fits how your business uses energy.

Every system starts with your usage, your roof or land and your goals. We size it to match when you use power, so as much as possible goes straight into your business.

Rooftop **Ground mount** **Carports** **Battery storage**

Site assessed

Your usage, roof and goals reviewed first.

Payback shown

Costs, savings and payback set out clearly.

Honest advice

If solar doesn't stack up, we'll say so.

WHO IS IT FOR?

Solar can work for all kinds of sites, including:

Factories and warehouses
Big roofs and daytime energy use.

Offices
Daytime demand that matches the sun.

Farms and estates
Land and outbuildings that can generate.

Retail and leisure
Lighting, chillers and air conditioning.

Care and healthcare
Sites using power every day of the year.

Schools and public sector
Lower bills and visible net zero progress.

WHAT YOU GET

A complete solar system, looked after.

System design

Sized to your usage, roof and goals, with savings and payback set out.

Installation

Design, procurement, installation and commissioning managed for you.

Battery storage

Store what you generate and use it when you need it.

Use it or export it

Power your buildings first, and export any surplus to the grid.

Performance monitoring

See what your system generates and how much you save.

Maintenance and warranties

Ongoing support to keep your system performing for decades.

WORKS ALONGSIDE

Your other energy savings.

Business energy · Voltage optimisation · EV charging · Energy reporting

FUNDING OPTIONS

Three ways to pay for solar.

There’s a funding route for most businesses, including options with no upfront cost. We set out the numbers for each so you can choose.

Buy outright

Pay upfront and own the system and everything it generates.

Lease or finance

Fixed payments over an agreed term, offset by your savings from day one.

Solar as a service

No upfront cost. Pay a fixed rate only for the power the system generates.

We compare them for you

Costs, savings and payback for each option, side by side.

DID YOU KNOW?

Every kWh you generate is one you don’t buy

Power from your own panels isn’t exposed to grid price rises, giving you more control over your energy costs for years to come.

WHY USE KEE

Solar with your whole energy picture in mind.

One point of contact

A real person at Kee from survey to switch on.

Usage first

We start with how you use energy, not a panel count.

No hard sell

If solar doesn't stack up for your site, we'll tell you.

Joined up savings

Solar, your energy contract and efficiency, planned together.

HOW IT WORKS

1. **Upload your bill**
   Send us a recent electricity bill so we can see your usage.
2. **Site assessment**
   We review your roof or land, usage and goals.
3. **Design and numbers**
   Your system, savings, payback and funding options.
4. **Install and support**
   Installed, commissioned and looked after.

Finance and lease options are subject to status. Savings depend on your site, system and energy use, and will be set out in your proposal.

GETTING STARTED

WHY KEE

One partner for your solar and your energy.

- **A real person** who knows your account, whenever you call.
- **Honest advice**, even when the answer is no.
- **Usage first**: systems sized to how you use power.
- **We take ownership**: if something's not right, we chase it until it is.
