Kee BUSINESS SERVICES

PRODUCT SHEET

Cyber Essentials

A managed route to Cyber Essentials and Cyber Essentials Plus, with three tiers of protection and one simple price per employee.

THE FIVE CONTROLS

Firewalls
Boundary protection that controls what can reach your devices and network.

Security updates
Software and devices kept up to date with the latest security patches.

Malware protection
Protection against viruses, ransomware and other malicious software.

Secure configuration
Devices and software set up securely, with unnecessary access removed.

User access control
The right people have the right access, and only that.

Ongoing evidence
Continuous checks keep you ready for each annual renewal.

WHO IT'S FOR

Bid for contracts
Public sector and larger clients often require it.

Get asked for proof
Customers, insurers or auditors want evidence.

Have no IT team
No in house cyber skills to rely on.

Tried before
Started Cyber Essentials but didn't finish.

Juggle suppliers
Too many IT and security providers.

Need to renew
Already certified and due for renewal.

CHOOSE YOUR TIER

Protect
Stop email fraud and account takeover. Identity and email threat detection, endpoint firewall, patch scanning, gap assessment, staff training and phishing tests.

Detect
Everything in Protect, plus malware protection on every device and round the clock log monitoring to spot threats early.

Respond
Everything in Detect, plus a 24/7 UK security operations centre, threat hunting, unlimited incident response and a named contact.

Priced per employee
One number you can work out yourself. No penalty for extra devices and no requoting.
