PRODUCT SHEET

Commercial Solar Panels

On site solar PV designed, installed and maintained for your business, with battery storage options and funding to suit, including no upfront cost.

WHAT YOU GET

System design
Sized to your usage, roof and goals, with savings and payback set out.

Installation
Design, procurement, installation and commissioning managed for you.

Battery storage
Store what you generate and use it when you need it.

Use it or export it
Power your buildings first, and export any surplus to the grid.

Performance monitoring
See what your system generates and how much you save.

Maintenance and warranties
Ongoing support to keep your system performing for decades.

WHO IS IT FOR?

Factories and warehouses
Big roofs and daytime energy use.

Offices
Daytime demand that matches the sun.

Farms and estates
Land and outbuildings that can generate.

Retail and leisure
Lighting, chillers and air conditioning.

Care and healthcare
Sites using power every day of the year.

Schools and public sector
Lower bills and visible net zero progress.

FUNDING OPTIONS

Buy outright
Pay upfront and own the system and everything it generates.

Lease or finance
Fixed payments over an agreed term, offset by your savings from day one.

Solar as a service
No upfront cost. Pay a fixed rate only for the power the system generates.

We compare them for you
Costs, savings and payback for each option, side by side.
