CYBER SECURITY

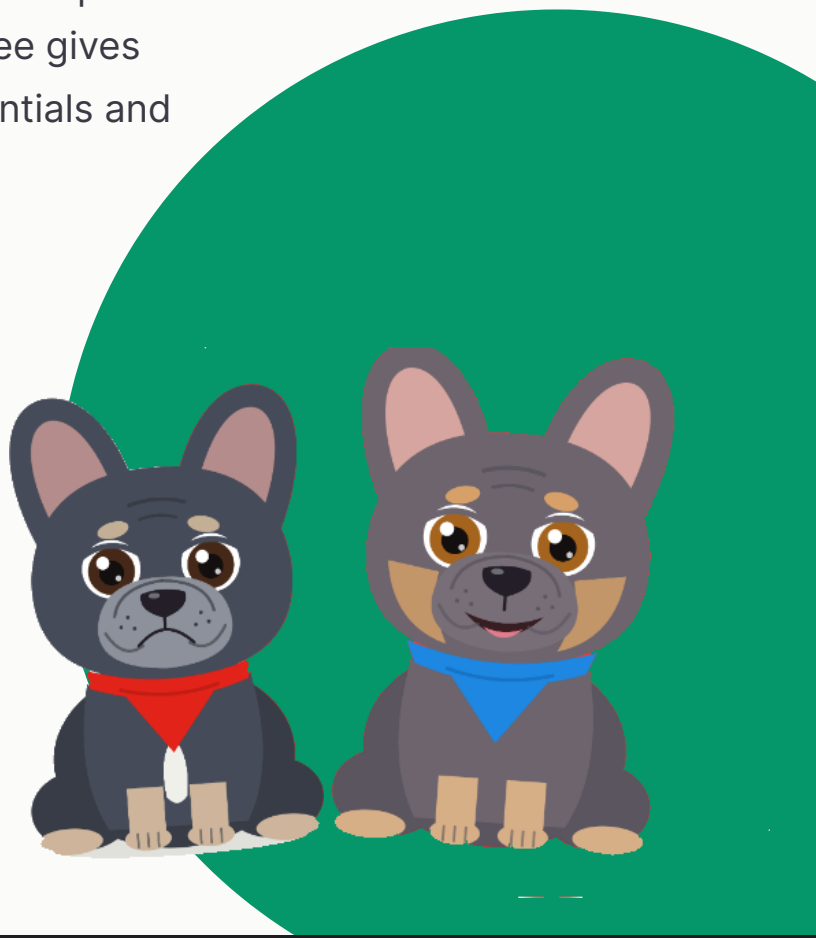

PROVE YOU TAKE SECURITY SERIOUSLY

Cyber Essentials

A clear path to government backed accreditation, with the protection to back it up.

Customers, insurers and suppliers want proof you take cyber security seriously. Kee gives you a managed route to Cyber Essentials and Plus, with protection built in.

- **Managed route** to Cyber Essentials
- **Protection** that keeps you compliant
- **One price** per employee

WHY CYBER ESSENTIALS

Show customers your cyber security is in order.

Cyber Essentials is the UK government backed standard that proves your business has the basic protections in place. It's required for many government contracts and increasingly asked for by supply chains and insurers. Getting ahead means you're ready to bid or renew the moment it's asked for.

Public sector suppliers **Tendering businesses** **Professional services**
Supply chains **Growing SMEs**

Win more work

Accreditation that opens doors to contracts.

Reduce risk

Real protection, not just a certificate.

Predictable cost

One price per employee, no surprises.

WHO IT'S FOR

Cyber Essentials is a smart move if you:

Bid for contracts
Public sector and larger clients often require it.

Get asked for proof
Customers, insurers or auditors want evidence.

Have no IT team
No in house cyber skills to rely on.

Tried before
Started Cyber Essentials but didn't finish.

Juggle suppliers
Too many IT and security providers.

Need to renew
Already certified and due for renewal.

THE FIVE CONTROLS

What Cyber Essentials checks.

Firewalls

Boundary protection that controls what can reach your devices and network.

Secure configuration

Devices and software set up securely, with unnecessary access removed.

Security updates

Software and devices kept up to date with the latest security patches.

User access control

The right people have the right access, and only that.

Malware protection

Protection against viruses, ransomware and other malicious software.

Ongoing evidence

Continuous checks keep you ready for each annual renewal.

THREE TIERS

Three tiers, one platform, one price model.

Protect **Detect** **Respond**

CHOOSE YOUR TIER

Cyber Essentials accreditation on every package.

Every tier includes Cyber Essentials accreditation support. Choose how much of the day to day security you want handled for you.

Protect

Stop email fraud and account takeover. Identity and email threat detection, endpoint firewall, patch scanning, gap assessment, staff training and phishing tests.

Detect

Everything in Protect, plus malware protection on every device and round the clock log monitoring to spot threats early.

Respond

Everything in Detect, plus a 24/7 UK security operations centre, threat hunting, unlimited incident response and a named contact.

Priced per employee

One number you can work out yourself. No penalty for extra devices and no requoting.

KEEP IT GOING

Accreditation that doesn’t lapse

Cyber Essentials needs renewing every year, and controls can drift in between. Continuous checks keep you audit ready and flag gaps before renewal, so you never start from scratch.

WHY USE KEE

Accreditation made simple.

One point of contact

A real person at Kee from first chat to certificate.

Guided all the way

We help you prepare, so there are no surprises.

Joined up

Alongside your phones, broadband and mobiles.

Clear pricing

One price per employee, set out up front.

HOW IT WORKS

1. **Book a chat**
   Tell us about your business and why you need it.
2. **Gap assessment**
   We see where you meet the five controls today.
3. **Get protected**
   Your tier is set up and any gaps are fixed.
4. **Get certified**
   Accreditation, then ongoing checks for renewal.

GETTING STARTED

Three easy ways to get started.

WHY KEE

One partner for accreditation and protection.

- **A real person** who knows your account, whenever you call.
- **Honest advice** on which tier you really need.
- **Ongoing support**, not a one off certificate.
- **We take ownership**: if something's not right, we chase it until it is.
