WHAT WE PROVIDE

Network design
Networks planned around your building, your team and the systems you rely on, from 2 users to large sites.

Structured cabling
Cat5e, Cat6 and Cat6a cabling installed neatly and tested, ready for the speeds you need.

Fibre optic
Fibre installed between floors, buildings and cabinets, plus repairs and upgrades to existing fibre.

Business WiFi
WiFi for offices, warehouses, industrial sites and outdoor spaces, with coverage where you need it.

Diagnostics
Cable testing, fibre testing and troubleshooting to find out why your network is slow or unreliable.

Servers and cabinets
Server and comms cabinet installations, tidied, labelled and ready to support.

WIFI

Offices
Coverage on every floor.

Warehouses
Industrial WiFi for big spaces.

Outdoor
Yards, car parks and grounds.

Busy spaces
Built for lots of devices.

FREQUENTLY ASKED QUESTIONS

Your questions answered

What size of network can you install?
From 2 users to large installations.

What cabling do you install?
Cat5e, Cat6, Cat6a and fibre optic.

Do you install fibre?
Yes, and we repair and upgrade existing fibre.

Can you fix our WiFi?
Yes, we find the dead spots and design proper coverage.

Do you do outdoor WiFi?
Yes, for yards, car parks and grounds.

Can you just diagnose a problem?
Yes, for your IT team to fix, or with a quote to fix it.

Do you support it afterwards?
Yes, from the first cable onwards.

How do we start?
Book a meeting with the team and tell us about your site.
