Kee BUSINESS SERVICES

PRODUCT SHEET

X Hoppers

Wireless headsets, an AI assistant, smart call points and analytics that connect your store team, systems and customers.

WHAT IT DOES

Wireless headsets
Hands free headsets let associates talk to the team, answer calls and hear alerts anywhere on the shop floor.

AI assistant
Staff ask out loud and get instant answers on products, stock and store procedures.

Smart call points
QR codes on products, pumps or departments let customers call for help. Every scan alerts staff.

Answer calls anywhere
Headsets connect to the store phone system, so calls are answered from the sales floor.

Safety and security
Discreet security alerts, backup calls and integration with lone worker and CCTV systems.

Analytics
See who spoke, for how long and what staff ask the AI, to spot training gaps.

WHO IT'S FOR

Still use radios
Bulky, uncomfortable and rarely used.

Miss store calls
Phones ring with no one free to answer.

Train new starters
Procedures are hard to remember.

Run several sites
Head office can't reach stores quickly.

Worry about safety
Staff need a discreet way to call for help.

Need task reminders
Mandatory checks get missed.

CONNECTED STORE

Business apps
Microsoft 365, Salesforce, HubSpot, Zendesk and more.

Security and CCTV
Computer vision, CCTV and lone worker safety apps.

Online orders
Delivery and click and collect alerts to the team.

Analytics tools
Send store data to Power BI and other tools.

Upload your current phone or radio contract: wkf.ms/4juXFfs · Pilot in one store first
