FACT SHEET

Business Mobiles

Every major network, with device management and one in house team looking after it all.

AT A GLANCE

NETWORKS **O2, Vodafone, EE and wholesale**	OUR APPROACH **No preferred network**	HANDSETS **In the contract or bought separately**
MANAGEMENT **MDM and company Apple accounts**	COVERAGE **Checked before you sign**	SUPPORT **One in house team, start to finish**

WHAT'S INCLUDED

Every major network
O2, Vodafone, EE and wholesale airtime. We're not tied to one, so we pick what fits you.

The right handset deal
Handsets in the contract or bought separately, whichever is most cost effective for you.

Company Apple accounts
Phones held under the business, so they're never locked when someone leaves.

Coverage checked first
We check signal at your office, your sites and where your team works before you sign.

Device management (MDM)
Manage every company phone from one place: set up, add apps, lock or wipe if lost.

In house team
Roaming, upgrades, faults and billing, handled start to finish by our own team.

WE LOOK AFTER

Going on holiday
Roaming set up before you fly, so no bill shocks.

Faults
Tell us once and we deal with the network.

Upgrades
We plan upgrades with you and handle the swap.

Billing queries
A real person who knows your account sorts it out.

Let's have a proper chat

FREQUENTLY ASKED QUESTIONS

Your questions answered

Which network is best?
It depends on where your team works and how they use their phones. We compare O2, Vodafone, EE and wholesale and recommend the best fit.

Can we keep our numbers?
Yes. We move your existing numbers across for you.

Should we buy handsets outright or in the contract?
It depends on your business. We show you the total cost of both so you can choose.

How do we check coverage?
Use Ofcom's independent checker to see every network by postcode, and we'll check your sites too.

What is device management (MDM)?
Software that lets you manage all your company phones from one place, including locking or wiping a lost phone.

What happens to a phone when someone leaves?
With company Apple accounts and device management, the phone stays with the business and can be reset for the next person.

Who do we call if something goes wrong?
Us. Our in house team handles faults, upgrades, roaming and billing.

How do we get started?
Upload your latest bill, email us or book a call, and we'll compare every network for you.
