FREQUENTLY ASKED QUESTIONS

Your questions answered

What is managed print?
We look after your printers and copiers for you: devices, toner, servicing, billing and reporting. Businesses save an average of 30% on print costs.

Do we need new printers?
Not always. We can often keep your existing devices and manage them, or recommend changes where it makes sense.

How does toner work?
Devices are monitored remotely and toner is sent before you run out.

What if a device breaks?
Proactive monitoring spots many issues early, and an engineer is on site within 4 hours.

Can you stop confidential documents being left on the printer?
Yes. Secure print means users log in at the device to release their documents.

Can you help with scanning and paperwork?
Yes. Managed document solutions look at your whole document process, not just printing.

Our copier lease is ending. Can you help?
Yes. Upload your contract and we'll review it before you renew.

How do we get started?
Book a chat and we'll start with a site analysis.
