BUSINESS SERVICES

CYBER SECURITY

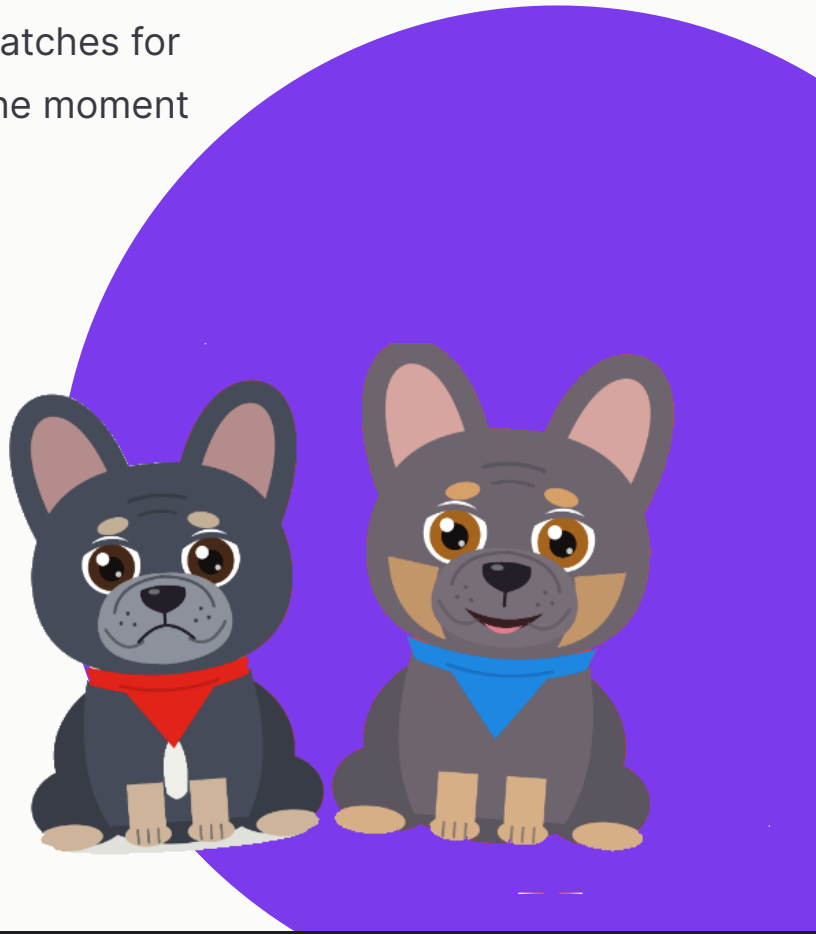

KNOW WHEN YOUR DATA IS EXPOSED

Safe Web

Find out when your business data turns up on the dark web, before criminals use it.

Stolen passwords, emails and card details are traded on the dark web. SafeWeb watches for your business data and alerts you the moment it appears.

- **24/7** dark web monitoring
- **Instant** breach alerts
- **30 day** free trial

WHY SAFEWEB

Your data could be for sale without you knowing.

The dark web is a hidden part of the internet where criminals buy and sell stolen data and hacking tools. If a staff password or company email ends up there, it can be used to get into your systems. SafeWeb scans for your company data around the clock, so you can act before it is used against you.

Small businesses **Professional services** **Retail** **Healthcare** **Charities**

Always watching

Continuous scanning of dark web sources.

Fast alerts

Email alerts as soon as a breach is found.

Real support

Experts on hand to help you respond.

WHO IT'S FOR

SafeWeb is a smart move if you:

Use email for everything
Staff logins and inboxes are a prime target.

Take card payments
Card details are among the most traded data.

Hold customer data
You need to know if it has been exposed.

Have no IT team
No one in house watching for breaches.

Worry about phishing
Staff could be caught by a fake email.

Need GDPR help
Policies and templates are hard to keep up with.

HOW IT WORKS

Monitoring that keeps you in control.

24/7 monitoring

Our system scans the dark web for your company data, such as passwords, emails and card details, day and night.

Breach alerts

Receive an email alert as soon as a new breach involving your data is found.

Monthly exposure report

A clear monthly analysis of your breaches, with actionable insights.

Take action

Our support team is on hand to help you after a breach.

Large data source

A large dark web data source means wider coverage of breaches.

Clear reporting

Plain English reports you can share with your team.

THREE TIERS

Choose the level of protection you need.

SafeWeb | SafeWeb Plus | SafeWeb Pro

CHOOSE YOUR TIER

Dark web monitoring on every package.

Every tier includes advanced dark web monitoring. SafeWeb Plus and Pro add the tools to train your team, stay compliant and respond fast. Every tier starts with a 30 day free trial.

SafeWeb

Advanced dark web monitoring with 24/7 breach alerts and a monthly exposure report.

SafeWeb Plus

Everything in SafeWeb, plus phishing simulation, incident response and the privacy toolbox.

SafeWeb Pro

Everything in SafeWeb Plus, plus cyber insurance cover for privacy liability, defence costs and fines.

Help choosing

We'll talk you through which tier suits your business.

WHEN IT HAPPENS

Expert incident response

When facing a data breach, swift action is critical. The incident response team gives specialist advice, helps you inform the relevant parties and works with you to limit your losses, whether you suspect a breach or have one to report.

WHY USE KEE

Peace of mind, made simple.

One point of contact

A real person at Kee who knows your business.

Plain English

No jargon, just what you need to know.

Joined up

Alongside your phones, broadband and mobiles.

Honest advice

The right tier for you, nothing more.
