HOW IT WORKS

24/7 monitoring
Our system scans the dark web for your company data, such as passwords, emails and card details, day and night.

Monthly exposure report
A clear monthly analysis of your breaches, with actionable insights.

Large data source
A large dark web data source means wider coverage of breaches.

Breach alerts
Receive an email alert as soon as a new breach involving your data is found.

Take action
Our support team is on hand to help you after a breach.

Clear reporting
Plain English reports you can share with your team.

FREQUENTLY ASKED QUESTIONS

Your questions answered

What is the dark web?
A hidden part of the internet where criminals buy and sell stolen data, hacking tools and more.

What does SafeWeb look for?
Your company data, such as staff passwords, email addresses and card details.

How will I know about a breach?
You'll get an email alert as soon as one is found, plus a monthly exposure report.

What should I do if a breach is found?
Change the affected passwords and talk to the support team, who will help you act.

What is phishing simulation?
Controlled fake phishing emails sent to your staff, so you can see who clicks and train them.

What is the privacy toolbox?
Customisable templates for GDPR, such as data protection policies, consent forms and subject access responses.

Which tier do I need?
SafeWeb for monitoring, Plus for training and compliance, Pro if you also want cyber insurance.

How do we get started?
Book a chat and we'll set you up on a 30 day free trial of the right tier.
