Kee BUSINESS SERVICES

PRODUCT SHEET

SafeWeb

Dark web monitoring for your business, with 24/7 breach alerts, monthly reports and three tiers of protection.

HOW IT WORKS

24/7 monitoring
Our system scans the dark web for your company data, such as passwords, emails and card details, day and night.

Breach alerts
Receive an email alert as soon as a new breach involving your data is found.

Monthly exposure report
A clear monthly analysis of your breaches, with actionable insights.

Take action
Our support team is on hand to help you after a breach.

Large data source
A large dark web data source means wider coverage of breaches.

Clear reporting
Plain English reports you can share with your team.

WHO IT'S FOR

Use email for everything
Staff logins and inboxes are a prime target.

Take card payments
Card details are among the most traded data.

Hold customer data
You need to know if it has been exposed.

Have no IT team
No one in house watching for breaches.

Worry about phishing
Staff could be caught by a fake email.

Need GDPR help
Policies and templates are hard to keep up with.

CHOOSE YOUR TIER

SafeWeb
Advanced dark web monitoring with 24/7 breach alerts and a monthly exposure report.

SafeWeb Plus
Everything in SafeWeb, plus phishing simulation, incident response and the privacy toolbox.

SafeWeb Pro
Everything in SafeWeb Plus, plus cyber insurance cover for privacy liability, defence costs and fines.

Help choosing
We'll talk you through which tier suits your business.

Upload your current IT or cyber contract: wkf.ms/4juXFfs · 30 day free trial on every tier
