BUSINESS SERVICES

BUSINESS PHONE SYSTEMS

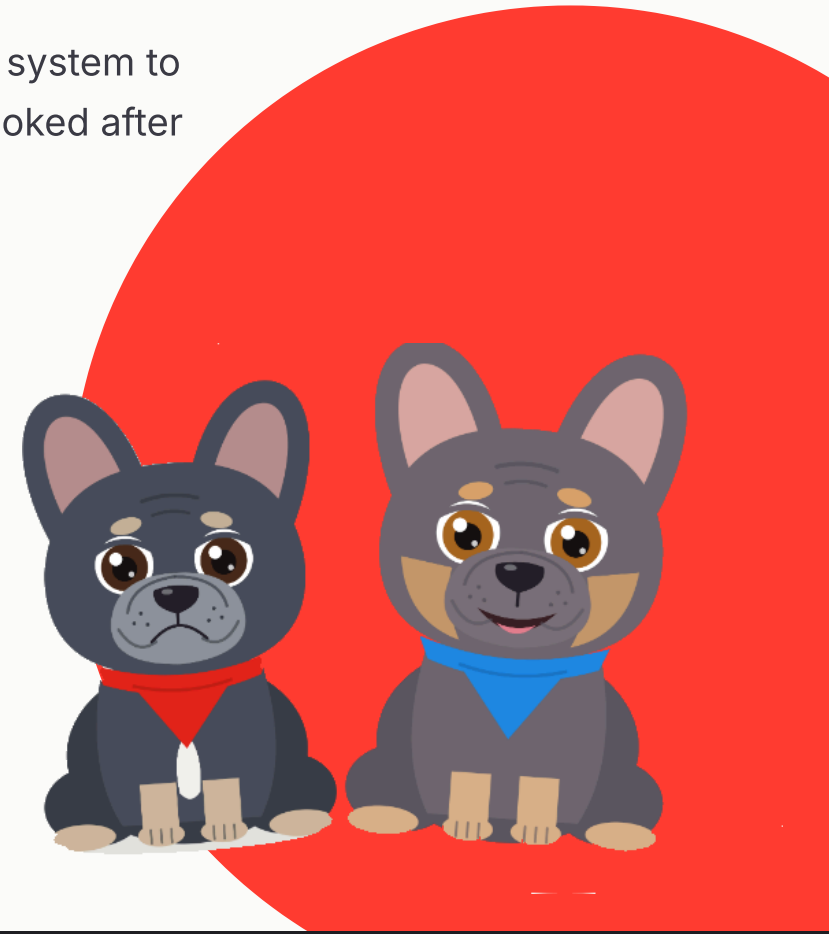
CALLS, CHAT AND MEETINGS WITH WEBEX

Hosted Phone System

Your whole phone system, in one app.

Hosted in the cloud, with no phone system to keep in your building. Set up and looked after by Kee.

- **Calls, chat and meetings** in one app
- **One number** on desk, laptop and mobile
- **Keep your numbers**, pay per seat



WHY GO HOSTED

A phone system that goes wherever your business does.

A hosted phone system runs in the cloud, not in a box in your office. There's no big upfront cost, nothing to maintain, and you only pay for the users you need.

Your team gets one app for calls, messages and meetings, on their desk phone, laptop and mobile. And because Kee sets it up and looks after it, you have a real person to call whenever you need help.

Lower costs

No hardware to buy, free calls between sites, and one supplier instead of several.

Work anywhere

Office, home or on the road, your business number goes with you.

Always on

Calls carry on even when the office can't open.

GREAT FOR

- **Multi-site businesses:** one system, free calls between sites.
- **Hybrid teams:** the same number at home or in the office.
- **People on the move:** calls follow you to your mobile.
- **Growing businesses:** add users in minutes.

WHAT YOU GET

Everything you need from a business phone system.

Cloud calling

A full business phone system hosted for you. No phone system in your building, no big upfront cost.

Calls, chat and meetings

The Webex app brings HD voice and video calls, messaging and meetings together on desktop and mobile.

One number anywhere

Calls reach your desk phone, laptop and mobile, and move between them without hanging up.

Professional call handling

Auto attendant menus, hunt groups, call queues, music on hold and voicemail to email.

Business continuity

If the office is closed by snow, floods or power cuts, calls carry on wherever your team is.

Pay per seat

Add users as you grow, keep your numbers, and use local numbers wherever you are.

THE WEBEX APP

Calls, chat and meetings in one app.

Webex brings everything together on your computer and mobile, so your team can call, message and meet without switching apps.

Calls

HD voice and video, visual voicemail, and turn any call into a video meeting.

Messaging

Chat, group spaces, file sharing and presence, so you can see who's free.

Meetings

HD meetings with whiteboards, polling, breakout rooms and recording.

AI THAT HELPS

- **Noise removal** softens background noise on calls.
- **Meeting summaries** and transcripts, saved for you.
- **Catch me up** on what you missed in a meeting or space.
- **Rephrase and translate** messages in a click.

Works with Microsoft Teams and Outlook for calling. Features depend on your package.

PACKAGES

A package for every business.

Start with what you need and move up as you grow.

Softphone
CALLING ONLY

HD voice and video calling, screen share, visual voicemail, plus calling from Teams and Outlook.

Basic
SMALL BUSINESSES

Adds chat, group spaces, presence, and one-click meetings with whiteboard.

Standard
GROWING BUSINESSES

Adds the Webex Assistant, live transcription, virtual backgrounds and calendar links.

Premium
FULL COLLABORATION

Adds meetings of up to 1,000 people, cloud recording and Slido polling.

ADD WHAT YOU NEED

Call recording
Record some calls, all calls or on demand, for training, compliance and peace of mind.

Receptionist console
An on-screen console to manage busy reception desks and multiple sites.

Call reporting & wallboards
Real-time stats, missed-call tracking and reports to see how calls are handled.

CRM & Outlook integration
Click to dial and caller pop-ups from Outlook and over 200 CRM systems.

PROFESSIONAL CALL HANDLING

Every call answered, every time.

- **Auto attendant** menus and opening-hours messages.
- **Hunt groups and call queues** share calls across the team.
- **Music on hold** and your own messages.
- **Voicemail to email** so nothing sits unheard.
- **Hot-desking** and home working profiles.
- **Easy web portal** to make changes yourself.

WHY KEE

One partner for your whole phone system.

- **A real person** who knows your setup, whenever you call.
- **Honest advice**, even when the answer is the cheaper option.
- **One bill** for calls, lines, phones and add-ons.
- **We take ownership**: if something's not right, we chase it until it is.
